Some comments

Due to the transition of FP6→FP7 which happened in June 2007, our fiscal year runs June→May.

The Action was underspent last year, as most Actions which started in fall 2007 (spent only 33k out of around 60k allocated).

Budget unused in 1 year is not transferred to the next.

For 2008, the Action has the “standard” average of 90K-100k.

A plan for the next year June08→May09 is needed to guarantee the funding of the activities.
